WATER RESOURCES BULLETIN 2-26
WATER WELL RECORDS FOR ONTARIO
REGIONAL MUNICIPALITY OF WATERLOO
WELLINGTON COUNTY
1946-1976

INTRODUCTION

This publication is one of a series which presents water-well information for the Province of Ontario. This bulletin contains water-well data for the Regional Municipality of Waterloo and Wellington County for wells constructed during the period 1946 to 1976. Table 3 lists previous reports in which similar data have been published.

The information in this bulletin has originated from water-well records completed by water-well drilling and boring contractors licensed in Ontario. The production of this publication was carried out through the use of computer storage and printout facilities. The codes and abbreviations used in the main text are explained in the section entitled, "Explanation of Column Headings".

The geographical area covered by this bulletin is shown on the map on page iv. A summary of the water-well statistics pertaining to the area is displayed in Table 1.

Enquiries

The original water-well records published in this bulletin are available for public reference at the office of the West-Central Region, Ministry of the Environment at:

140 Centennial Pkwy. N.
Stoney Creek, Ontario
L8E 3H2

Tel: 416-561-7410

Enquiries about this and previous publications should be addressed to:

The Supervisor
Hydrology and Monitoring Section
Water Resources Branch
Ministry of the Environment
135 St. Clair Avenue West
Toronto, Ontario
M4V 1P5

Acknowledgements

The Ministry of the Environment gratefully acknowledges the assistance and service rendered by the water-well drilling and boring contractors who submittted the water-well records. This information provides a basic and unique tool in the assessment of ground-water conditions throughout Ontario.

This bulletin was prepared by staff of the Water Resources Branch who were ably assisted by staff of the Financial and Administrative Services Branch.

WATER WELL RECORDS

Each time a licensed water-well contractor constructs a well, a record of the well is submitted to the Ministry of the Environment. The record is then field-checked for reasonable accuracy by the Regional Water-Well Inspector. Subsequently, the information is entered on computer file in Head Office and the original record is filed at the respective Regional Office of this Ministry.

A selection of the important information from each record has been compiled in this bulletin. All data concerning the location, owner's name, date of construction, geological log, screen, water levels, well yields and water use are included. Additional information concerning casing length, drilling method and well plugging are not included in this publication, but are available for any particular record upon request from the Regional Office.

EXPLANATION OF COLUMN HEADINGS

MUNICIPALITY The water-well records in this bulletin are tabulated in alphabetical order according to municipality, concession and lot number. No concession or lot number is given for those wells located in urbanized areas such as cities, towns or villages. Since the boundaries of each municipality within the Waterloo Region no longer coincide with the geographical township boundaries, it is therefore difficult to use lot and and concession numbers without confusion or duplication. To avoid this problem the municipal descriptions used in this publication are based on the current namne followed by the former name in brackets. For example, Cambridge City (Waterloo Twp) means that wells listed under this heading are in the present City of Cambridge but were formerly in the Township of Waterloo. The survey descriptions given are for the former municipality, i.e., the Township of Waterloo.

Urbanized areas in Wellington County, which have undergone municipal name changes are indicated with the old names appearing in brackets after the current

names, e.g. Guelph City (Puslinch Twp.) means that wells listed under under this heading are in an area which is now in the City of Guelph but which was formerly in the Township of Puslinch. In such acases the survey descriptions given are for the former municipality, i.e., the Township of Puslinch.

CONCESSION The majority of townships in Ontario are surveyed into a regular pattern of concessions and lots; however, in some areas, geographical or historical factors may have created surveys of irregular shapes or patterns. This has resulted in many survey descriptions which are unique to certain areas. The abbreviations used in this bulletin to describe such surveys and tracts are listed below.

Abbreviations	Survey or Land Area	Municipality
Regional Municipality of Waterloo		
BBF	Beasley's Broken Front	Cambridge, Kitchener
BET	Bechtel's Tract	Kitchener
BLB	Beasley's Lower Block	Cambridge
BNS	Beasley's New Survey	Kitchener
BOS	Beasley's Old Survey	Cambridge, Kitchener
BR N	Bleams Road North	Wilmot
BR S	Bleams Road South	Wilmot
BT	Beans Tract	Kitchener
BUT	Beans Unnumbered Tract	Kitchener
CT	Crooks Tract	Woolwich
CTGEBF	Crooks Tract Grand River East Broken Front	Woolwich
CTGRE	Crooks Tract Grand River East	Woolwich
CTGRW	Crooks Tract Grand River West	Woolwich
CTGWBF	Crooks Tract Grand River West Broken Front	Woolwich
ES	East Section	Wellesley
ER N	Erb Road North	Wilmot
ER S	Erb Road South	Wilmot
GCT	Germany Company Tract	Cambridge, Kitchener Waterloo, Woolwich
GR E	Grand River East	Cambridge, North Dumfries
GR W	Grand River West	Cambridge, North Dumfries
HIET	Hiestands Tract	Kitchener
HORT	Hornings Tract	Woolwich
HT	Hitchings Tract	Woolwich
JWT	James Wilson Tract	Woolwich
JWT OX	James Wilson Tract Oxbow	Woolwich

Abbreviations	Survey or Land Area	Municipality
Regional Municipality of Waterloo		
MB	Middle Block	Cambridge
SR N	Snider Road North	Wilmot
SR S	Snider Road South	Wilmot
WS	West Section	Wellesley
County of Wellington		
BF	Broken Front	Nichol
DIV	Division	Guelph Twp.
GR E	Grand River East	Pilkington
GR W	Grand River West	Pilkington
OSR E	Owen Sound Road East	Arthur
OSR W	Owen Sound Road West	Arthur

WELL NO. (Well Number) This is a unique number identifying each well within the province.

UTM EASTING NORTHING (Universal Transverse Mercator Co-ordinates in Metres) This location system makes use of a square grid, 1,000 metres x 1,000 metres, which is superimposed on maps of the National Topographic System. The vertical grid lines are called Eastings and the horizontal lines Northings.

The Easting represents the distance of a well in an easterly direction from a given north-south reference line. The Easting is the upper figure in the column.

The Northing represents the distance of a well in a northerly direction from a given east-west reference line. The Northing is the lower figure in the column.

The UTM co-ordinates were calculated after the well locations were plotted on topographic maps, using the locational diagrams submitted by the drillers. If the location of a well is uncertain, then the UTM co-ordinate spaces are filled completely with 9's.

ELEV FEET (Elevation in Feet) This represents the ground elevation at the well site in feet above mean sea level. The elevations were determined from plotted locations on the National Topographic maps and are therefore related to the accuracy of the locations and the scale of the maps.

DATE The month and year of well completion are shown in this column.

DRILLER — The drilling firm's licence number is given for each well. Table 2, page 656 is a numerical listing of the licence numbers with the corresponding contractors' names and addresses.

CSG DIA INS — (Casing Diameter in Inches) Casing diameters are shown to the nearest inch. Where several sizes of casings are used, the diameter of the upper casing only is given.

KIND OF WATER — After the construction of each well, the driller evaluates the water quality with a taste and smell test. The kind of water is shown by the following abbreviations:

FR	Fresh
SA	Salty
SU	Sulphur
MN	Mineral

WATER FOUND FEET — This is the distance or distances in feet below ground level at which the driller reported the occurrence(s) of water.

STAT LVL FEET — (Static Level in Feet) This is the distance below ground level to the water surface when the well is not being pumped. Static levels above ground are not given; the notation FLW, meaning a flowing well, is given for this condition.

PUMP LVL FEET — (Pumping Level in Feet) This is the distance in feet below ground level to the water surface at the end of the pumping test or the start of a recovery test.

TEST RATE GPM — (Pumping Test Rate in Imperial Gallons per Minute) This is the rate at which the well was test-pumped. In some cases the stated rate is a recovery rate, or the flow rate of a flowing well. The reported pumping-test rates are usually the results of short-term pumping tests. They do not necessarily represent the rates at which the wells could continue to supply water for prolonged periods of pumping. Continuous pumping at the stated rates could have resulted in some of the wells being pumped dry, while others may have been capable of being pumped steadily at much higher rates than those reported during the pumping tests.

TEST TIME HR/MIN — (Test Time in Hours and Minutes) This is the length of time during which the pumping or recovery test was conducted. Test times of 100 hours or greater are shown as 99 hours 59 minutes.

WATER USE

The following abbreviations are used to describe water use:

Domestic	DO
Stock	ST
Public Supply	PS
Commercial	CO
Industrial	IN
Irrigation	IR
Municipal	MU
Cooling and Air Conditioning	CA

In the classification of water use, domestic (DO) includes supplies for private household use; (ST) includes supplies for watering and washing livestock; public supply (PS) includes supplies for camping grounds, hospitals, churches, schools and public washrooms; commercial (CO) includes supplies for garages, stores, restaurants, motels, drive-in theatres and fish hatcheries; industrial (IN) includes supplies for factories and dairies; irrigation (IR) includes supplies for greenhouses, golf courses, market gardens and other crops; and municipal (MU) includes wells developed for municipal water systems serving five or more residences.

OWNER/LOG/ SCREEN DEPTHS IN FEET TO WHICH FORMATIONS EXTEND

The name of the original owner of the well is given on the top line. The following lines show the materials and colours for each geological formation encountered during drilling. The formations are described by standard abbreviations which are listed in predominant order, i.e., the most common material first and other materials after. General colours and descriptive terms are given where pertinent. The following examples illustrate the principle:

msnd grvl	- sand and gravel
grey clay fsnd grvl	- grey clay and fine sand and gravel
brwn grvl csnd	- brown gravel and coarse sand
grey msnd wbrg loos	- grey water-bearing medium sand, loose

Some of the actual terms employed by the drillers have been altered to conform to the standard list of materials. The standard lists of materials, descriptive terms and colours with the corresponding abbreviations are shown below:

Material Abbreviations

BLDR	boulders
BSLT	basalt
CGVL	coarse gravel
CHRT	chert
CLAY	clay
CONG	conglomerate
CSND	coarse sand
DLMT	dolomite
FGVL	fine gravel
FILL	fill
FLDS	feldspar
FLNT	flint
FSND	fine sand
GNIS	gneiss
GRNT	granite
GRSN	greenstone
GRVL	gravel
GRWK	greywacke
GYPS	gypsum
HPAN	hardpan
IRFM	iron formation
LMSN	limestone
MARL	marl
MGVL	medium gravel
MRBL	marble
MSND	medium sand
MUCK	muck
OBDN	overburden
PEAT	peat
PGVL	pea gravel
PRDG	previously dug or bored
PRDR	previously drilled
QRTZ	quartzite
QSND	quicksand
QTZ	quartz
ROCK	rock (bedrock)
SAND	sand
SHLE	shale
SHST	schist
SILT	silt
SLTE	slate
SNDS	sandstone
SPST	soapstone
STNS	stones
TILL	till
TPSL	topsoil
UNKN	unknown
WDFR	wood fragments

Colour Abbreviations

BLCK	black
BLGY	blue-grey
BLUE	blue
BRWN	brown
GREN	green
GREY	grey
RED	red
WHIT	white
YLLW	yellow

Descriptive Term Abbreviations

CGRD	coarse-grained
CLN	clean
CLYY	clayey
CMTD	cemented
CRYS	crystalline
DKCL	dark-coloured
DNSE	dense
DRTY	dirty
DRY	dry
FCRD	fractured (broken)
FGRD	fine-grained
FOSS	fossiliferous (shelly)
GVLY	gravelly
HARD	hard
LIMY	limy
LOOS	loose
LTCL	light-coloured
LYRD	layered (streaked)
MGRD	medium-grained
PCKD	packed
PORS	porous
SHLY	shaly
SHRP	sharp
SLTY	silty
SNDY	sandy
SOFT	soft
STKY	sticky
STNY	stony
THIK	thick
THIN	thin
VERY	very
WBRG	water-bearing
WTHD	weathered

Each formation is followed by a number which indicates the distance to the bottom of the formation. The last number generally indicates the total depth of the well. If a screen is installed in the well, this information is shown in brackets immediately following the formation in which the screen is set. The brackets contain an S for screen, followed by two numbers signifying the depth to the top of the screen and the screen length, respectively.
